

## *Saturday Seminar Series in Huelo*

# **Communicating with Farm Animals, Plants and Insects with Dr. Laurie Moore**

**October 16, 2010 -11am – 1pm**

**\$25 per person**

Just imagine how much happier your chickens, horses, dogs, cats, plants, bees and worms would be if they could let you know exactly what they need and how they felt. We can answer questions that have kept us wondering about our animals' health, happiness and any messages they have for us. We can gain a deeper harmony in our life from our animals' wisdom. Dr. Laurie will give you tools and personal assistance with animal and plant communication. You will have facilitated practice time and she will answer your questions.

Dr. Laurie Moore, LMFT, CHT, & Animal Communicator made expert appearances on *Ricki Lake*, *Fox News Live*, *O'Reilly Factor*, *The John Walsh Show*, *In the Company of Angels*, *Seeing Beyond* and *KRON News Weekend*. She offers private sessions by phone and leads Unconditional Joy Dolphin Seminars in Hawaii. Moore was a graduate psychology teacher at San Francisco State University, Santa Clara University and Chico State University. Moore is globally recognized for her contributions to humanity and animals. She is the author of *Animiracles*.
